### Pro Team

Chiefs,

Yesterday, I met with Captain Justin DiMedio from West Goshen PD. Justin recently linked up with a company called Pro Team, which is an alternative to occupational health and only deal with first responders and military personnel. Here is their website: <https://www.proteamtactical.com/>

The Pro Team is coming to Chester County, and it sounds like they will have a facility somewhere in West Chester; they will bill your workers' comp carrier directly. They are much more efficient than Occupational Health and understand the First Responder Community and our needs.

Justin asked me to send a survey so they could start collecting some data.

Below is a Google survey we created, and the responses will go to Capt DiMedio.

Justin also said to feel free to email him directly if you do not want to use the Google survey or if you have questions.

If you or they have any questions about ProTeam, please email Jordyn West at [jwest@proteamtactical.com](mailto:jwest@proteamtactical.com) or call/text her at 479.409.4831.

I plan to have this group attend a meeting in the next few months.

I've known Justin for 30 years, and he was a firefighter at Goshen years ago, so he gets it. Please take the time to complete this survey; this group sounds like a wonderful alternative to occ health.

Gerry
