Hi Jonathan,

I hope you're having a great week and staying cool in this heat! I'm writing with an update on the PCHF Mini Grant Program. Starting in July, we will have updated grant categories and eligibility, and we will no longer be offering health education or AED mini grants moving forward. Please let the members of NCCFC know at the next meeting.

If, during the year, there's a particular project or need, NCCFC members can email me and we'd be happy to discuss a sponsorship possibility, which will be an easier process than the grant!

In addition, I think PCHF can be removed from the standing agenda of the NCCFC meetings. If you need one of us there at any point, please let me know!

I understand this may be disappointing news to hear! Please let me know if you have any questions about these changes.

Best,
Sam Anthony
